

I am very satisfied with the service of American Lift Aid. I have tried other establishments that provide vehicles and driving accessories to the handicapped but nothing can rival the services provided here. The time frame allotment for procurment, installation and fittings were exceptionally small. I have had to return for updates to the equipment that also were done in short time periods. All of the employees were very courteous and congenial even when I would ask unnecessary questions about the equipment, I strongly recommend American Lift Aid to anyone needing transportation for disabled people in any situation.

Kenneth Fortberry

P.S. I am a paraplegic, unable to walk, have to use a wheelchair and my right arm has limited movement. My equipment is a little harder to adjust. Thanks to Raquel it was done correctly.
